

M Israr Ali Mirza

Architect

Enthusiastic architect eager to contribute to design through hardwork, attention to detail and excellent organizational skills. Dedicated to instill comprehensive understanding of architectural potential as an agent for change in a society. Eager to take part in teaching-learning activity & sharing Observations, thoughts & ideas. Having excellent Craft skills & attention to detail. I believe that Sustainability, Climate proactive and Ecosystem-friendly measures are no longer a choice but need of the time. Motivated to learn, grow and excel in challenging environments.

Experience

Jan 2020 - Current

NFC - Institute of Engineering & Technology, Multan Lecturer

- Taught Formative years (1&2) Design Studios with focus on foundational concepts of architecture design like **Light & Space, Scale & Proportions, Anthropometry** etc.
- Used variety of learning modalities and support materials to facilitate learning process and accentuate presentations.
- Evaluated and revised lesson plans and course content to achieve student-centered learning.
- Inspired students to actively participate in class discussions.
- Held weekly office hours to work with struggling students one-on-one and increase their performances.
- Administrative responsibilities: Timetable Incharge, Graphics Lab Incharge, Departmental focal person for DSA.

Dec 2018 - Jan 2020

NAM Associates (Architectural Design Consultancy, Multan) Junior Architect

- Designed and drafted project blueprints.
- Consulted with clients to determine functional and spatial requirements of new structure.
- Designed Commercial three Storey building in Layyah City.
